MSI T8 Portable Gold Trommel Wash Plant

[Inventory ID #239534]

The Portable T8 gold trommel wash plant is designed specifically for gold recovery operations. MSI rates the T8 at up to 300 tons per hour, or 200 cubic yards. Results will vary depending on materials conditions. Its design allows for portability and fast setup, with a 300 horse power hydraulic drive system. The Plant is designed to accommodate a wide variety of sluice boxes or jigs. All wear areas have replaceable bolt-in wear plates, oversized shafts, oversized bearings, and high tensile frame.
