

Abel EM-12572200-SG Electromechanical Membrane Pump [Inventory ID #193084]

- Material design ductile iron.
- Model: EM-12572200-SG.
- Serial No.: 3000312-01.
- Motor:
 - 30 HP Motor.
 - Volts: 460V.
 - RPM: 1750 (At 1750 RPM, Flow should be 422 GPM).
 - Hz= 60.
 - Totally Enclosed, Fan-Cooled (TEFC).
 - Maximum strokes/minute= 91.
- Pump was used less than 100 hrs. to pump municipal sludge.
- Suction connection = 6 In. / 125#.
- Ansi. discharge connection = 5 In. / 125# ansi.
- Four chambers.
- Polyurethane valve seats.
- LP. max. solid size = approximately 1/2 In.
- Approximate weight = 5,555 lbs.
- Overall dimensions: 80 In. x 79 In. x 80 In. (W x L x H).
- Drawings and manual on file.
