

## [Alternate Process Technologies 20 TPH Wash Plant](#) **[Inventory ID #160095]**

**Make:** Appropriate Process Technologies (APT)  
**Year:** 2013

- Alluvial & Hard Rock Mining Combination.
  - 20 TPH (10 m<sup>3</sup>/hr) alluvial scrubbing & 12 TPH (6 m<sup>3</sup>/hr) hard rock combination plant.
  - RG200 scrubber with 3 mm screen fitted.
    - 15 kW geared motor drive and feed trough with water monitor.
  - RG200 scrubber spares kit.
  - Knelson KC-CD 20 Concentrator.
    - 7.5 kW drive (7.5-10 hp electric motor).
  - JC120 - 12 TPH jaw crusher.
    - 22 kW electric motor.
  - RD120 - 12 TPH fines crusher.
    - 75 kW electric motor.
  - Jaw crusher, product conveyor, scrubber discharge conveyor, feed conveyor with grizzly and feed hopper.
  - Scrubber water supply pump: MN 40-160A (4 kW).
  - 2/1 RD return pump with sump (4 kW).
  - Plant piping including water reticulation.
  - Full electric reticulation including wirings, start/stops, emergency stops and motor control centres with pluggable cabling.
  - Condition:
    - Alluvial: 5 months used.
    - Hard rock: New/unused.
  - Year: 2013.
