

Caldwell GC-25 Rail and Beam Grabber

[Inventory ID #143462]

- Caldwell Rail and Beam Grabber.
 - 2 units available.
 - Model: GC-25.
 - Capacity: 25 tons.
 - These clamps provide an efficient method for handling wide flange beam sections and plate girders.
 - Screw-spindle design ensures positive grip.
 - Simple design ensures minimum maintenance.
 - Left-hand thread and right-hand thread screw spingle allows for rapid claming and unclamping.
 - Jaw opening adjusts to a wide range of beam types and flange widths.
 - Use only for vertical lifting.
 - Complies with ASME standards.
