

## Deister 14 Concentrating Table [Inventory ID #1024785]

This is a good used mid-size Deister No. 14 Concentrating Table (Shaker Table). It comes with 2 x Sand Decks + 1 x Slime Deck.

Deister concentrators are excellent for gold recovery along other minerals such as iron, tungsten, chrome, tin, copper, mercury, tantalum, silver, and lead. They are commonly used in placer and hard rock mill applications along with recovering values from slags, drosses, and sweepings plus treating clays in the removal of impurities from glass sand.

### Equipment Included:
