

General Electric Cabinet For Induction Generator [Inventory ID #122493]

Manufacturer: GENERAL ELECTRIC

- General Electric Cabinet, Contol and Converter.
 - For double fed induction generator in wind generation application.
 - Manufactured in 2014.
 - Water cooled.
 - Connection: Grid.
 - Voltage (3 phase):
 - Grid: 690 VAC.
 - Gen stator: 690 VAC.
 - Gen rotor: 690 VAC.
 - Frequency:
 - Grid: 50/60 Hz.
 - Gen stator: 50/60 Hz.

- Gen rotor: 50/60 Hz.
- Current (A RMS):
 - Grid: 1720 @ 35°C / 1500 @ 45°C.
 - Gen stator: 1425 @ 35°C / 1425 @ 45°C.
 - Gen rotor: 640 @ 35°C / 640 @ 45°C.
- Max symm. short circuit current :
 - 32 kA RMS, 690 VAC (Main XMFR connection).
