

## [Kue-Ken 51 in Cone Crusher](#) [Inventory ID #134846]

- Kue-Ken 51 in Cone Crusher.
  - Low hours.
  - Pre-assembled unitized design for quick installation.
  - Coil spring tram release system.
  - Adjustable feed plate and distributor system for maximum capacity and high output.
  - True compression crushing action minimized linear wear.
  - Capacity:
    - 100 to 113 TPH at maximum ½ in. stone.
    - 322 to 345 TPH at maximum 2 in. stone.
  - Equipped with:
    - 150 hp electric motor.
      - 575V.
      - 3 phase.
      - 60 Hz.
    - Motor drive sheave mounted on shaft.
    - Sheave wheel mounted on crusher drive.
    - New spare bowl liner.
    - Good used spare mantle.

- Shipping information:
  - Dimensions:
    - Outside diameter of crusher (not including shaft & pulley): 84 in. / 2.13 m.
    - Height of crusher from seating base to top of crusher: 78 in. / 1.98 m.
    - Depth of crusher within foundation: 19 in. / 0.48 m.
    - Overall diameter of crusher at seating base frame: 82 in. / 2.08 m.
    - Overall diameter of crusher insert within foundation: 63 in. / 1.6 m.
    - Diameter of drop opening inside foundation: 23.5 in. / 0.6 m.
  - Weights:
    - Total shipping weight: 45,500 lbs. / 20,638 kg.
    - Heaviest piece if disassembled: 5,300 lbs. / 2,404 kg.
