

Marcy Pulp Density Scale [Inventory ID #1621533]

Marcy Pulp Density Scale

Quantity: (2) Units Available

- Make: Marcy
- Type: Direct Reading Pulp Density and Specific Gravity Scale
- Condition:
 - (1) Unit New
 - (1) Unit Used
- Marcy Direct Reading Pulp Density and Specific Gravity Scale Speeds up the Determination of Pulp Densities, Specific Gravities of Pulps or Liquids, Specific Gravity of Dry Solids
- Eliminates Errors in Reading Charts or Graphs and Prevents Errors in Calculations
- Sensitivity: Circular Dial is Equivalent to a 47in Beam Balance for Greater Sensitivity
- Solid Construction: Entire Unit is Supported by a Top Ring, Scale is Accurately Set at the Factory
- Compatibility: Interchangeable Dials make Weighing Applicable for any Range of Solids of Light or Heavy Density
- Applications: Use Marcy Scales to obtain the following direct readings;
 - Weight of Sample in Grams or Kilograms
 - Specific Gravity of Liquid or Pulp

- All Results are in % Solids by Weight
- Percent Solids Contained in the Pulp of Any Given Specific Gravity
- Specific Gravity of Dry Solids

- Location: Savona, British Columbia, Canada
