

Mine 600-480-208V Portable Substation

[Inventory ID #206033]

This substation includes many safety features to protect users and operators against electric shock and arc flash.

Some of these safety features include:

- Remote operator handles for 600 and 480 Volt feeder breakers.
- Separate compartment for main breaker.
- External voltage test portals.
- LED voltage indicator lights for each 600 V outlet.
- Vacuum contactors for ON/OFF control of 600V outlets.
- Ground fault and pilot wire protection for each 600V circuit.

Please contact us for more information.
