

Montabert CPA X-TEND Boom

[Inventory ID #1121082]

Montabert CPA X-TEND Boom

- Make: Montabert
- Model: 24/20
- Condition: Good, Used
- Hours: 1200 Percussion Hours
- Feed Rail Looks to be in Very Good Condition
- Feed will take 24' Lead Steel and One 20' in Single Rod Holder
- T-51 Rods - Most Un-Used (x5)
- Comes With HC150 RP Montabert Drifter
- Includes Compressor (2,400 Hours)

CPA X-Tend Drilling Attachment

- Works with HC150 RP or HC160 RP Montabert Drifters (based on model type)
- 76-140mm Hole Diameter
- 45-51mm Rod Diameter
- 3.6-28 Meter Maximum Hole Length (based on model type)
- 2170-2530 Blows/min
- Wired Control Panel
- Dimensions: 32' 8" Long x 4' 5" Wide x 6' Tall
- Weight: 2820Kg
- Carrier Characteristics
 - 22 to 35 Metric Tons
 - 88kW (119HP) Minimum Power Required
 - 195 l/min (51gpm) Required Oil Flow
 - 195 bar (2800 PSI) Required Oil Pressure

These Attachments are ideal for the following applications:

- Quarry Holes for Blasting
- Trenches and Road Openings
- Utility Works
- Anchoring, Rock Bolting and Draining
- Rough Terrain Construction
- High or Long Reach Drilling

In Addition, The Drill Controls System Provides

- Straight Holes
- Best Productivity
- Easy Drilling in Difficult Location or Rock Conditions

HC150 Hydraulic Drifter

- 26-30 kW Maximum Output
- 37-50 kW Input Range
- 1,340-1,680 Nm Maximum Torque
- 76-115mm Hole Diameter
- 7,214-9,975mm Feed Length
- Type of Rod: T45, T51, T60
- Feed Swing: +/- 27°
- Air Requirement: 8,500-12,000 l/mm
- Weight: 190Kg
- Overall Length: 1,745mm
- Hydraulic Reserve Percussion
- Application: Tunneling, Benching, Long Hole

- Location: Western Canada
