

## RP4 Shaker Concentrating Table

**[Inventory ID #138824]**

- RP4 Shaker Concentrating Table.
  - Designed for separation of heavy mineral and gemstone concentrate down to 1 micron size.
    - Can process up to 600 lbs/hr of black sand magnetite or pulverized rock with little or no losses.
    - Uses a unique reverse polarity of rare earth magnets.
      - Causes magnetite to rise and be washed off into the tails leaving the gold traveling to the catch.
  - Compact and weights 60 lbs.
