

RP4 Shaker Concentrating Table [Inventory ID #138824]

- RP4 Shaker Concentrating Table.
 - Designed for separation of heavy mineral and gemstone concentrate down to 1 micron size.
 - Can process up to 600 lbs/hr of black sand magnetite or pulverized rock with little or no losses.
 - Uses a unique reverse polarity of rare earth magnets.
 - Causes magnetite to rise and be washed off into the tails leaving the gold traveling to the catch.
 - Compact and weights 60 lbs.
