

Stearns 30 x 120 Wet Drum Magnetic Separators

[Inventory ID #181753]

- 30 in. diameter.
- 120 in. long.
- 4 units available.
- Exceptionally high magnetic recovery and discharge.
- Recover magnetics contained in feed slurries.
- Reduce ton/media consumption of treated product.
- Recover magnetic solids in as clean a magnetic concentrate as possible.
- Keep separating baths at low viscosity.
- Eliminate misplaced product.
- Permanent magnet assembly eliminates coil burn-outs.
- In many instances, eliminate the need for a densifier.
