

[Toyo DP 1200 Submersible Agitator Sand Pump](#)

[Inventory ID #194622]

- Original pressure compensation and sealing system provides high efficient operation at shallow or deep water.
- Suitable for the water depth up to 80m.
- Continuous operation with high concentration by the strong suction power and agitation of Cutter Fan (agitator).
- Extreme durability and resistance to abrasion.
- Suitable for dredger/dredging system.
- Provides best performance for dredging at high depth.
- Bore is suitable especially for dredging sea bed.
- Bore:
 - 600 mm.
 - 24 In.
- Standard Head (m): 30.
- Standard Capacity (m³/min): 6000.
- Solid Size (mm): 120.
- Motor:
 - Output (kW): 900.
 - Pole: 16.
- Power Source:
 - Voltage (V): 3300.
 - Frequency (Hz): 60.
- Weight (Ton): 33.
- Cable Length (m): 80.
